

SELF-ORDERING KIOSK

# KIOSK

Self-service metal touchscreen kiosk with a 21.5-inch touchscreen, a fast 80mm thermal ticket printer, and an integrated 2D scanner.

This elegant self-ordering kiosk combines functionality and design in a sturdy metal structure with a sleek black-and-white finish. Its 21.5" touchscreen offers a smooth and intuitive user experience, making it ideal for enhancing customer autonomy in any environment. Equipped with a powerful RK3568 Cortex-A17 processor and Android operating system, it ensures stable and versatile performance for a wide range of applications.

Its modern and compact design makes it perfect for retail, hospitality, and commercial environments where streamlined order and payment management is essential. In addition, its Android system allows easy integration with multiple applications, offering a flexible and customizable solution to enhance the user experience and accelerate sales processes.
