POINT OF SALE

TLM | 700 INTEL i5

Point of Sale (POS) terminal with a 17-inch capacitive touchscreen. An ideal POS system for software and businesses that require a large screen.

The **TLM 700 POS** terminal stands out with its large 17-inch capacitive touchscreen, making it ideal for tasks that require ample screen space or software that needs to organize multiple windows simultaneously. It is constructed with a lightweight ABS material and a metal stand, ensuring a comfortable, convenient, and stable system.

Furthermore, this system comes equipped with all the necessary ports for connecting optional peripherals. It includes 6 USB ports, two of which are conveniently located on the back of the screen, as well as COM ports, VGA, HDMI, and a 1GB LAN port. Additionally, this system has built-in Wi-Fi for seamless wireless device connectivity.

17" CAPACITIVE INTEL i5 128GB SSD
