

PDA HANDHELD DEVICE

TLM | X110

Functional handheld device with scanner, featuring easily replaceable lithium battery even during operation. This ruggedized PDA has IP65 rating for water and dust protection.

Android 10

5 Inch

Bluetooth 4.0

4GB RAM

IP 65

500 + 3900mAh

The X110 PDA is useful and functional thanks to its easily interchangeable battery. With a simple click, you can remove the battery and replace it while the device remains operational. This increases the hours of operation and accelerates work in hospitality, restaurants, retail, or any type of commerce.

With an IP65 rating, it's waterproof, dustproof, and resistant to drops from 1 meter. It includes a USB charging cable and a fastening clip, and you can optionally find a charging base or the 1D and 2D scanner function directly on the ruggedized handheld device.
